Education

Amrita College of Engineering and Technology	2023 – 2027
Bachelor of Engineering (B.E.) in Electronics and Communication Engineering	CGPA: 7.74
Affiliated to Anna University	

Technical Skills

Programming Languages: C, Python, SQL, Assembly languages, Verilog

Tools & Platforms: Arduino IDE, Raspberry Pi, Jupyter Notebook, Google Colab, MS Excel, Keil uVision, Tinkercad, MATLAB

Domains: Embedded Systems, Internet of Things (IoT), Artificial Intelligence, Machine Learning, Computer Vision, Image Processing

AI & ML: Machine Learning, Deep Learning, RAG, LangChain, Vector Databases, Computer Vision

Soft Skills: Problem Solving, Teamwork, Communication, Analytical Thinking

Projects

Electronic Vote Polling Machine Using Arduino	2025
<i>Arduino, Embedded Systems, Electronics</i>	

- Designed and developed an electronic voting machine using Arduino.
- Implemented vote recording and counting functionality.
- Tested system reliability and performance under different conditions.
- Enhanced understanding of embedded systems and microcontroller applications.

Vehicle Number Plate Detection System	2025
<i>Python, OpenCV, Image Processing</i>	

- Developed a system to detect and recognize vehicle number plates.
- Applied image processing and computer vision techniques using OpenCV.
- Improved accuracy of vehicle identification and monitoring.
- Enhanced knowledge of automation and machine learning concepts.

IoT Based Smart Monitoring System	2024
<i>IoT, Arduino, Sensors</i>	

- Developed a smart monitoring system using IoT technologies.
- Collected and transmitted real-time sensor data.
- Enabled remote monitoring and control functionalities.
- Improved understanding of IoT communication protocols and sensor integration.

Internship

Engineering and Technology Intern	Jun 2025 – Jul 2025
<i>Shrishti Innovative Educational Services Ltd.</i>	

- Successfully completed a one-month internship program in Engineering and Technology.
- Gained exposure to practical engineering concepts and industry-oriented learning.
- Improved technical, communication, and teamwork skills through project-based activities.

Certifications

- Embedded System for IoT Applications using Raspberry Pi – Naan Mudhalvan Program (2025)
- Enterprise Business Process (EBPL) – HCL Career Shaper, Naan Mudhalvan Program (2025)
- Engineering and Technology Internship Certificate – Shrishti Innovative Educational Services Ltd. (2025)

Achievements

- Successfully completed AI/ML Internship Program
- Successfully completed the Viksit Bharat Young Leaders Dialogue (VBYLD) 2026 Online Quiz.
- Completed industry-oriented training programs under the Naan Mudhalvan Scheme.
- Participated in technical workshops and engineering events.
